I am a Pediatrics Resident at the University of Tokyo Hospital and Nagano Children's Hospital. I have conducted numerous studies on social determinants of health (war, adverse childhood experiences, and socioeconomic status, among others) and their relationship with development, mental health, and chronic disease. I am also interested in advancing precision medicine by tailoring interventions to meet the unique needs of individuals based on their socioeconomic and health circumstances. My work has been published in *The Lancet*, *JAMA Pediatrics*, and *Pediatrics*, among other journals.
